SEIYA
Experience
the sound
of silence

SEIYA SILENCE IS GOLDEN

SEIYA is a cost-effective quiet solution that uses the new Toshiba Inverter and compressor technology with R32 refrigerant to offer a powerful and efficient heating and cooling performance and year-round comfort.

Everyday Comfort

SEIYA has been designed with maximum comfort in mind. It offers exclusive features and high performance making everyday comfort a reality for all.

Give yourself a superior treatment

SEIYA's performance/price ratio makes it an exceptional product in the market. The entire range boasts AEER cooling and ACOP heating performance, which means optimal comfort with low energy consumption.

The sound of silence

Toshiba is constantly innovating towards air conditioning excellence. To reduce noise and improve comfort, SEIYA's noise reduction function reduces the sound level of the outdoor unit significantly, while its Quiet function reduces noise from the indoor unit to give you a good night's sleep.

TREAT YOURSELF TO JAPANESE QUALITY

Design and reliability

Innovation, efficiency, high reliability, energy savings - these powerful values are at the heart of everything we do at Toshiba. For over 50 years, Toshiba has been providing its clients with the precision and expertise of Japanese quality.

Toshiba's innovative inverter technology

Toshiba's innovative rotary compressor technology combines exemplary performance with outstanding reliability. Minimising fluctuations to ensure a constant temperature, it increases efficiency while significantly reducing the risk of incidental noise.

Toshiba's Inverter Technology allows the SEIYA to regulate heating and cooling capacity at all times, by adjusting the compressor speed.

➤ Quiet OUTSIDE

Unique noise reduction function

The SEIYA unique Silent operation mode allows the user to reduce the outdoor noise level to minimise disruption to the neighbourhood. From a touch of the remote control, this mode will reduce the sound pressure level of the outdoor unit, prioritizing minimum outdoor sound level, fast cooling and heating capacity demand.

➤ Quiet INSIDE

Quite mode can be activated by pressing the fan button to reduce the fan speed and the sound level of the indoor unit.

MAKE YOUR AIR CONDITIONER SMART

Enhance your comfort at home or away

Customise your comfort, finding the perfect cooling or heating level for your family at any time, no matter where you are. When at home, simply replace your infrared remote control with the intuitive smart app. This also gives you easy access to your air conditioner while you are on the move, allowing you to adapt your comfort to your lifestyle!

Want to go home and immediately enjoy an ideal temperature? Simply use the app to check the status, quickly and easily, adjust your comfort, no matter where you are!

-  Frost protection mode
-  Fireplace mode
-  Boost mode
-  Reduce the outdoor unit noise level
-  Wi-Fi Ready - Module available separately.

Take complete control of your comfort with the Toshiba Home AC Control App. Simple to use on your smartphone or tablet, both at home and on the move.

BETTER AIR SOLUTIONS FOR BETTER WORLD

Created by TOSHIBA - INVERTER TECHNOLOGY

AEER up to 4.04 RAS-10	AEER up to 4.28 RAS-13
-------------------------------------	-------------------------------------

10 sizes covering (Seiya Classic only)
2.0 to 10 kW (Cooling)
2.5 to 11.5 kW (Heating)

 Self-cleaning

At Toshiba, we've always made sure our projects and objectives are designed with a better future in mind. Now, more than ever, attitudes are changing as technology continues to revolutionise our world. We don't simply follow or adapt to them; we predict them.

That's why the new generation of Toshiba air conditioners uses R32 refrigerant with low global warming potential.

WIRELESS SOLUTION FOR WELL-BEING ON DEMAND

TOSHIBA

Designed to maximize your comfort, Toshiba offers remote functions that make everyday life simpler.

Seiya Controller

Temperature Control

5-Selectable Fan Speed plus Auto

Power Selector
Select between 50/75/100% for maximum power savings.

Daily Timer

Wire Connectable Controller
The infrared controller can also be hard-wired.

Seiya Classic Controller (Back lit)

3D Airflow
Improved comforts by distributing powerful and stable air volume in 6 unique airflow patterns*
*only for RAS 22-RAS36 models

ON / OFF

8°C Heating
Indoor temperature kept at 8°C, but temperature can set between 5 and 13°C.

Weekly Timer
Toshiba remote control provides a very convenient automatic on and off operation, programmable up to 4 different settings/day and 7 different programs in a week.

Temperature Control

5-Selectable Fan Speed plus Auto

Fire Place
Ensures the unit operates in fan mode to help move the heat generated by the fire place.

Silent Operation
Toshiba's unique noise reduction function of outdoor unit for your neighbourhood comfort.

Power Selector
Select between 50/75/100% for maximum power savings.

ECO
Achieve energy-savings of up to 25% compared with standard settings with no compromise on comfort.

Wire Connectable Controller
The infrared controller can also be hard-wired.

MAGIC COIL® ACRYLIC RESIN COATED

Healthy
fresh air for longer

SEIYA is equipped with an acrylic resin coated coil, which helps to prevent water and dust from sticking to the coil. When the air conditioning is switched off to drain the contaminated coil, the fan continues to operate to keep the coil clean and dry.

EFFICIENT 3D AIRFLOW 6 AIRFLOW PATTERNS*

*For Seiya Classic RAS22-RAS36 models only

Improved comfort by distributing powerful and stable air volume in 6 unique airflow patterns. The indoor unit provides further airflow and stable air volume in 6 unique patterns to ensure optimum comfort levels. Independent louvers improve comfort with a selection of powerful airflow shower settings to evenly distribute the airflow, maintaining a consistent and comfortable temperature.

Sizing table is strictly a guide only, it is recommended to contact a qualified Toshiba Dealer to correctly assess your individual needs.

The sizing guide assumes an average house with insulated walls and ceiling height of 2.4m with an average North or West facing installation
